

Project Summary

Blackwater Mine Ramp 16 Communications Tower Project

Project Brief

- The effectiveness of the existing Ramp 20 communications tower diminished with the advance of mining operations thus requiring the need for a new communications tower.
- Capital project - \$1,04 M
- Project Completion Oct 2012

Project Summary

Deliverables

- A new 60 meter communications tower
- Improved radio and network communication along the mines haul road, back access road and northern pits.
